For over 30 years, **TRESKY** has been perfecting the art of creating pick & place systems.

As a solutions provider, we support a wide range of applications with our highly accurate and innovative systems. This is made possible by our extensive experience and modular setup which allows adapting basic systems with countless options for new processes.

With more than one thousand systems installed across the world, often with special & customized equipment, we diligently work to fulfill complex process requirements.

Supported by a fast, flexible and professional team ready to be tested.

We look forward to your challenge!
